Product Support

Consult your BioLynceus[®] Environmental Concierge[™] for product support, application information and current pricing.

Application Details

The application rate is 1-2 gallons concentrate per acre. Can be used for foliar, drip, and sprayer applications. May aid in nutrient uptake. Dilute a minimum 1 gallon product to 10 gallons water. Use appropriate amount of water for proper application.

Compatibility

This product is compatible with nitrogen base fertilizers (UN-32, CAN-17). Use with appropriate water dilution. Jar test for compatibility before mixing with other chemicals.

Storage and Handling

Store in original container in a cold dry place out of direct sunlight. In case of accidental exposure, flush with water. Product is non-hazardous. May stain clothing. Wear eye protection. Protective gloves recommended.

Keep Away From Children - Not for Human Consumption - Do not allow product to freeze.

Note: buyer assumes all risk of use, storage and handling of this material. Neither the manufacturer, seller, nor its agents, make any warranty, expressed or implied, concerning this product, except in conformity with statements on the label. Information regarding this product can be obtained from BioLynceus.
